

**Summary of AC Responses
Webinar Topic List**

Topics - original list from NAEM Board and AD Interviews	Sub-Topics/Details	<p>Summary of Top topics identified for consideration - Bolded are the priorities</p> <p>1. Green/ Sustainable Remediation (Candidate for Quarterly Webinar - 2 Affiliates Identified, need 1 more)</p> <p>2. Renewable Energy Credits, What are They (Candidates for Quarterly Webinar - 2 Affiliates Identified, need 1 more)</p> <p>3. Optimizing the Workplace for the Future Workforce/Population - (On-Demand for a Fee Pilot 1)</p> <p>4. Communication in EHS/Sustainability initiatives</p> <p>5. Sustainable Products Management</p> <p>6. Water Use Policies and Regulatory Issues - (On-Demand for a Fee Pilot 2)</p> <p>-----</p> <p>--On-demand Webinars - most companies have ready to go (or can easily</p>
Respiratory Protection		
Auditing/Policy/Enforcement	EPA and State Voluntary Audit Programs EPA policy priorities and enforcement updates	
Water Risk Management	Case studies	
Obama Administration Briefings	Monthly	
Energy Saving Incentive Programs in the US	Links, tips, good websites	
Cap & Trade vs. Carbon Tax	Brief overview	
EMIS Evaluation Process	Evaluation checklists, pilots, licensing 101	
Due Diligence	Beyond Phase I and into the future - expanding ASTM standards for mold, vapor intrusion and reasonable steps for AAI	
Ergonomics	Optimizing the workplace for future workforce population - designing the work place for the aging population Managing ergonomics as an improvement process: roadmap for an effective and sustainable management system Leadership and employee engagement: key elements of a sustainable ergonomic process	
Hearing Conservation Program		
Communications	Using communications to engage your workforce in sustainability initiatives Articulating and communicating your EHS commitment to external and internal audiences EHS/sustainability reporting guidelines and best practices	
Stormwater Management		
Transportation	Heavy vehicle transportation requirements - California style	
NPDES	Waste water permit, pitfalls and concerns	
Lifecycle Assessment throughout the Supply Chain		
Know your NESHAP		
Ammonia based refrigerant systems	RMP, PSM and anti-terrorism	
Product Compliance	Batteries, substances of very high concern, endocrine disrupting chemicals	
Refrigerant Management Systems phase out of CFCs	Inventory, tracking and reporting	
Risk Management 101: the basics		
RCRA: the fine points		
Solid Waste Management, Recycling - E-waste, Battery Recycling, Plastic, OCC		
Energy Conservation: Energy Star	Updates on Energy Star, overview, resources/tools	
Basics of Carbon footprinting	Protocols, scope types, inventory management tools Setting a goal About the CCx Climate leaders Addressing double-counting	
RECs	What are they renewable energy generation opportunities using landfills	
How to Create a Sustainable Facility	Avoiding greenwashing	
Sustainable Products Management	Supply Chain, definition of, labeling, issues with marketing claims	
Remediation	Environmental liability and financial reporting - Trends and methods for environmental liability evaluation Emerging sustainable remediation developments Reporting contamination discoveries - regulatory and ethical considerations Vapor Intrusion - assessing and managing vapor intrusion risks from subsurface contamination	

Live Webinars - Six topics identified for consideration:

- 1. Green/ Sustainable Remediation** (Candidate for Quarterly Webinar - 2 Affiliates Identified, need 1 more)
- 2. Renewable Energy Credits, What are They** (Candidates for Quarterly Webinar - 2 Affiliates Identified, need 1 more)
3. Optimizing the Workplace for the Future Workforce/Population - On-Demand for a Fee (Pilot 1)
4. Communication in EHS/Sustainability initiatives
5. Sustainable Products Management
6. Water Use Policies and Regulatory Issues - On-Demand for a Fee (Pilot 2)

On-demand Webinars - most companies have ready to go (or can easily modify) presentations - recommend that we establish FTP site and have firms upload for review by webinar committee members.
