

Chris is an Environmental, Health, Safety, and Sustainability executive with over twenty-five years of experience. His experience spans multiple industries and companies, such as Fermi National Accelerator Laboratory, Sigma-Aldrich, ITT Inc, Xylem Inc, and Imerys.

Chris holds a B.S. in Environmental Health, is a Certified Safety Professional, and is a Certified Hazardous Materials Manager.

Over the last three years, Chris has been the Director of Environmental, Health, Safety & Sustainability for Imerys, Performance Minerals Americas. Under his strategic direction, this group has expanded its headcount and resources to increase efforts on Sustainability while integrating five separate divisions into one and advancing their overall EHS&S performance.

Chris's values of service, dedication, and excellence have been the foundation of his work. He brings unique perspectives gained from his experience working in different organizations, industries, and on a global scale. His passion for learning and improving has helped him bring new and innovative ideas to the companies and industries he has served.

Chris's dedication to growing the talent on his teams has led to many of them moving onto more significant projects and roles within and outside the companies they worked at.

Chris has spoken at international and national conferences to learn more than he's shared. He has also supported professional organizations on their planning committees and chaired sessions.

Operations within his responsibility have won international and national awards. Most recently, NIOSH and the CDC recognized his work in the mining industry during the COVID Pandemic.

When not focused on work, Chris's passion shifts to his high-school sweetheart and bride for the past +27 years and their three exceptional children.
