NAEM Awards Committee

RE: Lifetime Achievement Award Nomination for Kelvin Roth

To Whom it May Concern:

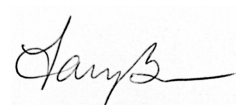

I'm honored to nominate Kevin Roth for the 2023 NAEM Lifetime Achievement Award. I've known Kelvin for more than a decade, in both professional and personal capacities. In that time his proven leadership and deep expertise in the EHS field along with his passion to develop others, inspire his team, and amplify this profession, has made a significant impact on all that have had the privilege of working with him.

Kelvin has been a leader and mentor to me for nearly half of my 24-year environmental career. He first hired me as a consultant about 12 years ago, and then a few years later took a chance on me by hiring me to lead his global environmental program (which was a big step forward in my career), knowing that it was the first time I had this level of responsibility in leading a global program. Its in that role, under his leadership, guidance, and teaching, that I discovered my passion and strengths in growing an environmental program and building a strong team. Throughout this time Kelvin continued to give me opportunities to learn and grow, as well as actively engaging me with senior leadership. A key part of this learning was growing my leadership skills and network, which included active engagement with NAEM, immersive leadership training and communications coaching.

Although the company we worked for was sold and our team had to break up and find jobs elsewhere, Kelvin remains an inspirational leader to others and has continued to be my advocate, mentor and inspiration. Kelvin's EHS career has also continued to grow and he was named VP by his current employer, which I strongly believe is due in large part to his continuous drive to develop, teach and mentor others in this field.

For those reasons, I proudly recommend Kelvin for this award. If you have any questions, please feel free to contact me at 970.692.9912 or fawn.bergen@intel.com.

Sincerely,
